DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 8, it is unclear how "a first ad-hoc terminal" recited in lines 28-29 related to "the first ad-hoc terminal" recited in lines 33. It is unclear how "a first ad-hoc terminal" recited in lines 28-29 related to "radio communication apparatus" recited in lines 33. Based on the figure 3 of the specification, the ad-hoc network is included three ad-hoc terminals. In the claim language only use the first terminal to communication with the base station (e.g., UE1 communicate directly with base station by first path) and the radio communication apparatus communicate with base station via the first ad-hoc terminal (e.g., UE1 communicate with base station via UE2). The UE1 cannot be a first ad-hoc terminal then later on that will be a radio communication apparatus. The term first ad-hoc terminal and radio communication apparatus does not consistent used throughout the claim.

Allowable Subject Matter

3. Claims 3-4 are allowed.
